

No Bake Peppermint Bonbons

4 tablespoons North Forest Peppermint Křem

10 oz bag of dark chocolate chips

2 tablespoons butter

0.5 cup + 1 tablespoon heavy cream

optional toppings and decorations of your choosing

1. Put chocolate chips in a separate container and set aside. This will be the container that holds the chocolate while it solidifies in the fridge.
2. Chop 2 tb of butter to little pieces so it melts easier. In a small saucepan, bring the cream and butter to a gentle boil over medium heat. Once it begins to boil, pour it over the chocolate. Let it stand for about 2 minutes.
3. After letting it stand, begin to mix the chocolate and the cream. The heat of the cream should be hot enough to melt the chocolate. If you keep stirring and it still doesn't melt, pop it in the microwave and heat at 20 second intervals until it melts. When melted, stir in the North Forest Peppermint Křem! Then, pop it in the fridge for about 3 hours until it hardens.
4. Remove the chocolate from the fridge. Now, it's time to shape them. You can use an ice cream scoop or melon baller to scoop it out.
5. Roll it between your hands to create a ball. The heat from your hands will melt the chocolate slightly to make it easier to shape.
6. Decorate the Bonbons as you wish and enjoy!

CHANKASKA SPIRITS

NORTH FOREST
— **KŘEM** —

PEPPERMINT

RICH AND CREAMY
MADE WITH PEPPERMINT AND VANILLA

Peppermint Martini

Drizzle chocolate syrup in glass
2oz. North Forest Peppermint Kream
